

SEAN KUTASH - Fullstack Developer

+1 (904) 383-5674 | SeanKutash@gmail.com | Naples, FL | [linkedin.com/in/seankutash](https://www.linkedin.com/in/seankutash) | github.com/kutashtrophe

Experienced Fullstack Developer with a distinctive 5-year military background, adept in Node, Javascript, React, Redux, Git, Express, PostgreSQL, HTML, and CSS. Excelled in military and civilian projects, bringing a unique fusion of technical proficiency, commitment, and precision.

TECHNICAL SKILLS

Proficient: Node, Javascript, React, Redux, Git, Express, PostgreSQL, HTML, CSS

Knowledgeable: Three.js, Blender, Vite, Tailwind CSS, BeeKeeper Studio, Adobe Photoshop, Adobe Premiere

TECHNICAL PROJECTS

Stardew Valley Themed E-Commerce Website | Team Leader & Full-stack Developer | [GitHub Link](#) | June 2023

- Led the development of a Stardew Valley themed e-commerce application, providing a fictional novel digital shopping experience for fans of the popular video game.
- Streamlined database updates by creating express routes which trigger when a client adds an item to the cart.
- Implemented a secure authentication system, ensuring user data safety.
- Spearheaded the design, contributing to the overall aesthetics by incorporating Tailwind CSS functionalities such as animated CSS keyframe bezier animations for team acknowledgments.
- **Tech Stack:** Express, Postgresql, Tailwind CSS, Redux, Bcrypt, JSON Web Token, React, Sequelize.

Shadows of Eternia | Full-Stack Developer | [GitHub Link](#)

July 2023

- **Shadows of Eternia** is a 2D dungeon crawler video game, inspired by classic games like The Legend of Zelda.
- Architected a scalable and reliable Firebase realtime database to handle efficient data management for the project.
- Seamlessly integrated the database with both front-end and back-end code to ensure optimal functionality.
- Designed the user profile architecture, crucial for user identity, authentication, and personalization across the game.
- Developed a hosting feature and a "lobby" system, enhancing multiplayer interactions and pre-game setup.
- Troubleshooted and resolved over 100 type errors, ensuring a stable and functional game application for deployment.
- Deployed Tailwind CSS for a polished and engaging frontend user interface.
- **Tech Stack:** Vite, Typescript, Firebase, Firestore, Phaser, React, React-Router-Dom, Redux, Tailwind CSS

EXPERIENCE

Submarine Sonar Technician | U.S. Navy, USS Helena (SSN-725) | Norfolk, VA December 2013 - May 2018

- Holds Active SECRET Clearance
- Led a proficient team of technicians on high-stakes submarine missions across the challenging expanses of the Middle East and Arctic regions, earning the prestigious Navy "E" ribbon for exceptional Battle Efficiency.
- Leveraged a profound understanding of electronics and warfare throughout deployment to Bahrain, meriting the prestigious Global War on Terrorism Expeditionary Medal.
- Awarded Navy Arctic Service ribbon for professionalism and outstanding performance in the Arctic.
- Honored with the Navy and Marine Corps Achievement Medal for Professional Achievement in the Superior Performance of duties, demonstrating unwavering dedication and meticulousness.

Renewal Specialist | **Renewal Support Services** | Tampa, FL

May 2020 - December 2022

- Leveraged expertise in government website procedures and meticulous attention to detail to manage SAM.gov form renewal procedures for over 1,500 businesses, significantly reducing their administrative burdens and enhancing their ability to secure government contracts during a 2.5-year tenure.
- Used advanced database software such as Zendesk to handle an extensive database logging every interaction with over 1,000 clients, demonstrating strong data management skills and ensuring accurate and efficient document management.
- Fielded and resolved an average of 100 in-person and telephone requests for information per week, showcasing excellent customer service and communication skills while also tracking client interactions and renewal status.

EDUCATION

Fullstack Academy Web Development Bootcamp

March 2023 - August 2023

Software Engineering Certificate

Full-time, Full Stack Javascript Web Development Immersive

Florida SouthWestern State College | Fort Myers, FL

December 2019

Associate of Arts: Network Services Technology

Courses: Intro to Programming, Intro to Databases, Calculus with Analytic Geometry II, Physics II, Statistical Methods
